

Trach Ties, the RTG Difference.

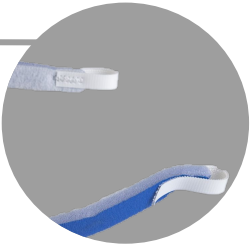

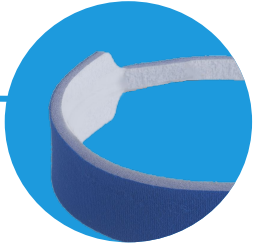

Respiratory Therapeutics Group has developed a comprehensive line of Tracheostomy Tube Holders under the Trach O-Life brand of our Tracheostomy care products. They are designed to provide maximum comfort for every patient.

RTG's proprietary Foamwick™ branded material is a breathable, soft material that wicks moisture away from the skin, minimizes heat and reduces the risk of skin maceration, keeping the patient dry and comfortable. The RTG Trach Tube Holders are available in a variety of styles and sizes, including one piece, two piece and anti-disconnect to meet every patient need.

Performance advantages of the RTG Trach Tube Holder

- Lightweight moisture wicking Foamwick™ fabric
- Ultimate patient comfort
- Smooth side fastener eyelet
- Instantaneous Wet Out

Foamwick™ vs. Cotton

Product Feature	Performance	
	Foamwick™	Cotton
Wet Out:	Instantaneous	Beaded water drop had to be forced into fabric drying time
Drying Time:	≈ 10 Minutes	≈ 60 Minutes
